### DETAILED ACTION

#### *Allowable Subject Matter*

1. Claims 1-15 are allowed.
- 2.

#### *Claim Rejections - 35 USC § 101*

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 16-22 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. With regards to claim 16, the claim does not fall into a statutory class, as it does not produce a useful, concrete and **tangible** result. The lack of a tangible embodiment is based on the means for language that points to the specification for interpretation and allows a reading of the claim embodied as a software driver, and therefore is not limited to tangible embodiments.
5. Dependent claims 17-22 are rejected under the same basis as the independent claim upon which they depend.
